A late 18th Century farmhouse retaining many original and quirky features and restored with the lightest touch. Set in an idyllic hidden valley in an Area of Outstanding Natural Beauty. Secluded garden and grounds extending to 3 acres full of mature trees, shrubs, secret places and a field of wild grasses. 1930s swimming pool and greenhouse. The house has painted beamed ceilings and original flagstone and hardwood floors throughout. Open fires and fire surrounds of architectural interest. The house flows easily from one room to the next and has an unusually open feel for its age. Old fashioned larder, pantry and cellar. Adjacent orangery is flooded with light and has double doors on two aspects. The house has a mixture of traditional English furniture, modern paintings and oriental rugs.
